
AQUAVISTA 500 CUSTOMER TESTIMONIALS

Real testimonials and photos from real customers

Dr. Irwin Goh, DDS, Las Vegas NV

My Name is Jennifer, and I work for Dr. Irwan Goh DDS. We have 3 of your Aquariums in our office. Our Patients love these tanks, and they are very much apart of our office, I am the person that maintains and watches over the fish. They are very beautiful and make my work environment less stressful. Whenever I call your company to ask for help, everyone who answers is always helpful and walk me through every question. So I thank you I hope you enjoy the pictures.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

“I’m really enjoying my Aquavista 100 and am really glad I purchased it!”

M. December

August 2009

I am truly enjoying the Aquavista 500. Everybody who walks in stares at my aquarium. My neighbors have been talking about it, and it truly has added beauty to my house.

Johnnie R.

August 2009

“I love my Aquavista 500 aquarium. This is the best item that a fish lover could have who doesn’t have a lot of room or time. I have two different backdrops that I will change out when the seasons change. People look at it and think it’s a fake painting. Then, when they see the fish move, they are amazed that it is a real aquarium. I live in a condominium for old folks home and have a lot of activities, so I do not have time to take care of a large aquarium. It’s so easy to take care of, and I love seeing my fish when I come. This is perfect for us. Thank you for making such wonderful products and providing us with such great customer service whenever we call.”

Peter J.

Colombus, OH

July 2009

We love your product and recommend it to everyone. We appreciate your excellent response to our needs and commend you for your “customer service.” It’s amazing to receive great service and a great product in one package. I will be sending a picture ASAP.

Sincerely,

Gene B., July 3, 2009

Montville, New Jersey

Thank you for a great product. It has changed our whole outlook when we get home. Our stress levels have dropped quit alot since having the Aquavista in our home. Both my wife and I work in a stressful line of work so having the Aquavista in our home lets us unwind from a long stressful day at work. Thanks again.

Sincerely,

Darren S.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

At Cornerstone World Outreach, we have 7 tanks in our church in the children's area. They are absolutely the 'end all' for everyone who sees them. I am the caretaker, affectionately called the 'fish momma'.

The first picture is the main wall we talked about. Off to the right is another two tanks. On the wall you don't see is a window looking into the baby room we call "tadpoles." The second picture is the baby room. We have three other classrooms; minnows, shrimp and guppies. The whole area is called the Aquarium.

Thanks again for your wonderful product, they really are unique. We believe that God's house should be represented with excellence and the aquariums fit that bill.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Okay really, you are checking on us? I am impressed!! Thanks so much.. So far so good, have not added fish yet just to be sure but looks like we will be able to soon! What impressive customer service...

Thanks again,

Sara M. (Customers response to Aquavista service follow up)
June 2009

I purchased a wall mount aquarium through Amazon last year. Unfortunately it's NOT an Aquavista but rather a XXX. The bulb went out shortly after we purchased it and we've been unable to find a replacement. There is no website for the company and when I call I get an answering machine that sounds like it's a person's home????!! Our poor fishes have been in the dark for months now. We made the mistake of not purchasing an Aquavista.

Customer Who Wished She purchased an Aquavista
July 2009

Thanks for the pump it's working fantastic it went in just like you said it would it took only 15 min to put back together and damn if my fish didn't respond to the new filter. The fish started breeding the next day, and now I've got a new batch of swordtails. Like I said before, your system works fantastic. Your instructions on installing the pump were great. Thanks again for the great customer service, you absolutely go up and beyond for your customers. I will be sending you some photos for the backdrop soon

Thanks again,
Darren S.,
Mesa, AZ, June 2009

I purchased an AQUAVISTA 500R in October 2006 and have been delighted with the product. It is prominently displayed and draws the admiration of all who visit.

Roger S. (second testimonial after 3 years)
Jacksonville, FL, June 2009

“I love my AV100! I have 3 dwarf frogs. I have them in my kitchen with me. I get so many compliments! I have rocks and fake driftwood in there, and they love to play and hide in them. I love watching them. Everyone at Aquavista is so nice and so helpful. You guys are great!

AQUAVISTA 500 CUSTOMER TESTIMONIALS

I rushed home from school as fast as I could. That was the day I would see live fishes in my house for the first time!.. It happened a year ago and by now my fishes have grown and changed. Today they look like a stream of vibrant colors as they swim happily in our Aquavista tank. These beautiful fish creates an impression of a moving picture.

In our tank we have pale rocks, artificial plants and a piece of driftwood in addition to our 10 happy bright colorful fish. We have 3 guppies, 2 zebras, 3 “mini goldfish” (well that’s what I call them), 1 rainbow fish, and 1 extremely funny looking bottom feeder (he’s really cute) that keeps our aquarium crystal clear and sanitary.

At first we only had 2 fishes but the population of our tank grew quickly. My family takes turns feeding our fish. On Tuesday I feed them, on Wednesday my mom does, and so on. Every day I rush home from school to see what the fish are doing. One day I came home and couldn’t believe my eyes: there near the bottom of the tank swam to little orange dots - baby fish! We were worried at first if the tiny babies will survive in our aquarium but to our great delight they grew bigger and stronger and eventually became grownups, just like their “mini goldfish” mother.

It’s very funny to watch the fishes when they are eating, because each fish tries to get as much food as possible and not let any other fish eat. Our fish tank has an air pump, whenever we turn it on the fish try to swim through it. Aquavista, thank you very much for this amazing aquarium – it added a lot of charm to our house and brought joy to me and my little brother!

Matthew W. (10 yrs old)
New York
June 2009

I have three of your aquariums and think they are awesome. I used to have a saltwater aquarium, but it was too much work. I replaced it with your aquariums, and it’s one of my favorite things in my home. I never have to do anything to take care of it, and I get so many compliments on them. I originally wanted to build a fish tank in my wall, but it was too expensive. I found Aquavista aquariums, and they were the perfect solution. I sometimes think I should do more, but my fish are doing so well. The tanks are absolutely stunning. I appreciate your great customer service as well. Thank you!

Lisa G,
Arizona
May 2009

I love my aquarium, but I have to say that your customer service goes beyond what I could have expected. Everytime I call, you are always patient, courteous, and helpful. Great service reflecting great products. Thank you!

AQUAVISTA 500 CUSTOMER TESTIMONIALS

“My wife bought the AV100 for me for Christmas and think it’s great. I wanted a few gold fish. Just so you know, when I went to the pet store, the employee told me that the gold fish would only last two weeks in the Aquavista 100. Well, it’s been 7 months now, and they are growing and looking great. I have it on a shelf in my kitchen.”

Glen B.
Portland, OR
June 2009

“I’ve never wanted a traditional fish tank, but my son kept asking me for fish. When I found the Aquavista 100, it was the perfect solution because it was space saving and beautiful. I set my Aquavista 100 in our family room under a flat screen television. Everyone who sees it thinks it’s the most beautiful thing they have ever seen, especially after they realize it’s not a screensaver and a real fish tank. It’s been wonderful. My son is happy with his fish “Googly-Eyes,” and I am happy because it fits so well into our decor.”

Patty L, PA
June 2009

“After viewing your pictures on line from your customers I noticed that a lot of them have the cord hanging down to a plug. This kind of spoiled the look of the tank, so I will share with you what I did that you might want to share. I cut a hole in the sheetrock as close as I could to the tank and another one to the side of the outlet near the floor. I took a snake and pulled the wire down through the wall so it was hidden. But, I still had an ugly hole in the wall. What I did was go to Home Depot and purchased a rubber cover that fits on the bottom of different round legged stools or chairs etc. that prevent marring the floor. I drilled a hole the size of the electrical cord through the bottom and then slit one side all the way through so it would open. You take the cord and put the cushion around it, close it and push into the hole in the wall. Its not perfect but it works. They come in white and black. Anyway! Just thought I would share!”

Take care!
Ernie
April 2009

“I love my Aquavista. It’s so unique and a wonderful work of art. Everyone who sees it want it but are too ashamed to ask where I got it. When I come home, I look forward to the sound of water. It’s easy to clean and all the parts that were included are all I need. My fish are happy. I am happy. It’s the best piece of furniture I have purchased in a long time. I love it.

George Johnson, NY
May 2009

AQUAVISTA 500 CUSTOMER TESTIMONIALS

“I never thought I would use the words “Phenomenal” and “Minimal” in the same sentence when describing an aquarium, but that’s what the Aquavista 500 is. It’s great because it’s self-contained and so easy to take care of. I also appreciate the quality of service provided by your company. I had some apprehension on hanging when I purchased the aquarium, and you were so helpful in helping me feel comfortable putting it up on my wall. I love my living art. Thank you for making such a wonderful product.”

Linda M., NJ
May 2009

I love this so much that I bought my son one for his home. Have had mine for almost 2 yrs and nothing has gone wrong with it. Everyone compliments us on how unique it is. A great product.

Mary
Rome, NY
November 2008

This past Christmas, my mother surprised my brother and I by giving each of us an Aquavista 500. At first I couldn't decide whether to set the tank up in my office or at home, but home won out! I haven't had the tank set up for even a month yet, but I've started out with silver and a Dalmatian molly. Next will come an albino dwarf catfish, and then, who knows? **Never having had a tank, I've had a lot of fun describing this one to the various specialty fish shops and pet stores I've been to as I started the fish shopping process. I ended up taking my digital camera with me everywhere since no one had yet seen this exact tank configuration. Every person was interested, and one staffer at local fish and bird specialty shop asked for your website information, as she was interested in possibly obtaining a tank for herself. Again, never having had a tank, I can't compare it to a standard set-up. I can say, however, that setup was relatively easy, and the pre-programmed settings and selections for filtering and oxygenation are ideal. Temp and setting the lights on a timer was also easy.** Here's a fun tip – I've set my tank light to come on when I should be getting up each morning. This works well with the unit in my bedroom. The light comes on and the day starts!

You'll note I substituted natural agate gravel for the white quartz that came with the Aquavista 500. It goes nicely with the freshwater rock formation on the background my mother picked out when she ordered these as gifts for us. Also, I added plastic grass and an artificial rock formation for the fish to hide in - in addition to giving the fish a place to hide and hang out, it's added a three-dimensional effect to the tank with the background.

Shaun A.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Dear Aquavista

I'm writing to sincerely thank you for your wonderful product! What a difference having a "live hanging picture" makes in a room! It's so exciting and beautiful!

We have selected our master bedroom, above the master bed, as the location for our beloved AquaVista 500R Aquarium. Needless to say, one of our favorite things to do is to lie at the foot of the bed and watch our fish family swims.....it's truly a calming, Zen experience! And each night, the gentle sounds of the water streaming and bubbling puts us to sleep quickly and allows us to get a thorough night's sleep.

Installation was also easy and took no time at all to mount the steel brackets onto the wall! We were also pleasantly pleased with how many items came with the Aquarium, nothing was left out and no need for additional shopping.

We love using the cleaning hose and all of the attachments are helpful and the kit is "a one stop shop complete sale." We were also pleasantly pleased with how many items came with the Aquarium, nothing was left out and no need for additional shopping.

All in all, we are pleased, thrilled and excited beyond our wildest dreams with our new Aquarium!

Most Sincerely,

Kathryn M.

Dear Scott,

Your company motto, "We Add Life to Art", perfectly express the pleasure of having your framed wall mounted aquarium in our home. Several months ago, after seeing your product featured on one of the New York morning television shows, I contacted your website to learn more. You replied immediately to my inquiry and sent out a full colored brochure and I purchased 2 of your Aquavista 500 model and we are absolutely delighted, not only with the quality of product, but also the excellent service that you provided.

Not knowing anything about aquariums, we found the Aquavista was made for people like us. Although your manual gives full installation directives, we took advantage of your installation service. Your commitment to detail was appreciated and your recommendation about placement of the 2 wall mounted aquariums proved to be perfect.

We enjoy the beauty that the aquariums have added to our home. The selection of frames was complimentary to our décor. Our wall art has become the topic of conversation when friends come to visit and realize that our pictures are, in fact, living art. And frankly, we too, continue to be fascinated watching our fish swish around as we look at our 'pictures.'

It has been a pleasure to do business with your company and staff.

Sincerely,

Richard & Jo-Ann G. (78 year old couple)

San Jose, CA

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Here are the pictures I promised to you. We love the tank and you've been so very wonderful to work with. You're a very caring personal group of people that go the whole nine yards to make sure every customer is happy. Even a call after the set up of the product my day care got so much out of doing this and now watching the fish and work they put into it. Thank you so very much for everything you did for me! You made it possible for me to do this with the kids.

ROSE M.

Just wanted to say the Aquarium was easy to set up and operate. Just hang on the wall and add the fish, easy to control. Also wanted to say you are an excellent company to do business with.

Thanks again,

Roger S.
Jacksonville, FL

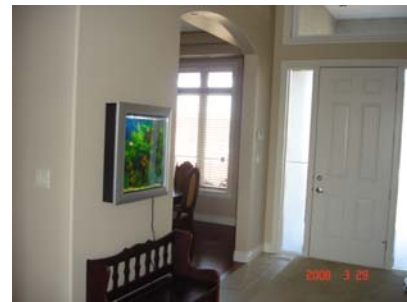

Thanks so much for all your help. Everyone always stops and asks if those are real fish. I will highly recommend Aquavista.

All the best,
MARTHA G.

I have purchased and set up my Aquavista 500R and am very satisfied with it. Everyone that walks into our new home comments on the fish tank.

Testimonial:

The first thing we did when we moved into our brand new home is hang our AquaVista 500 in the main foyer. Are we glad we did. Every single person that walked into our home commented on the AquaVista 500 first and foremost. They all wanted to know where we got it from and how they can get one. Even people that have had aquariums for years cannot believe that real fish are in the AquaVista. **Not only is it a great conversation piece, but the limited maintenance required is unbelievable.** If you want something unique and easy to maintain, we highly recommend a AquaVista 500.

Thank you in advance,
Gabriel & Tracey C.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

We thoroughly enjoy it and everyone who comes over is just blow away.

Thanks,
Nancy (and Rick, and one very happy daughter)

We are so thrilled with the Aquavista fish tanks for our boys! They provide visual stimulation, help with visual tracking and are mesmerizing to watch. We bought bright orange goldfish to contrast the blue backgrounds so Gursh would have an easier time seeing them move. He loves to put his face on the tank to feel the vibrations when the bubbles are on!

Thank you for your special gift to our family, but special thanks from Zach and Gursh.

**Love from the Van Den Bos Family
Through Make A Wish Foundation**

I love my Aquavista! I have one shrimp (for algae, will probably add a couple more since their bioload is negligible) and four Glow-Fish which I chose because of their brilliant color and constant movement, I plan to add two more Glow-fish eventually. I also pit in a small castle for the shrimp to hide in.

Regards, **Cary S.**

Thank you for a great product it's changed our whole out look when we get home. Our stress levels have dropped quite a lot since having the Aquavista in our home both my wife, and I work in a stressful line of work so having the Aquavista in our home it lets us unwind from a long stressful day at work thanks again.

Sincerely,
Darren S.

I have to share that the Aquavista Aquariums are the first thing people comment on when they enter our office. They really make our entry come alive.

Take care,
Tanya P.

Absolutely, Aquavista, has the best customer service, the customer always come first, they listen and help, they are friendly and stand behind there product 100%. I had a positive and a great experience with them, and my concern was resolved and addressed to a complete satisfaction.

I highly recommend Aquavista, great product and superior customer service,

Thank you Aquavista,

Georgetown Smile

Please tell Scott what a super kick ass product he developed! My office will never be the same!

Have a great weekend!

Body: Not only was I completely satisfied with this transaction, but being a first-time aquarium user, I had many questions that probably could've been handled on a local level, yet this merchant returned all my e-mails, telephone calls, etc. They went far beyond the call of duty. I have recommended this website to all my friends & will continue to do so. The merchant truly made my new hobby a breeze. His prices beat out the competition by \$100, which made it an extra bonus. We couldn't be happier with our purchase. Please pass this along to other buyers!

Hi Scott, Here is my testimonial let me know if I can add anything to help you further.

“I saw the Aquavista 500 at a friend’s house and was amazed. I had to have it. I asked for it for Christmas but really couldn’t wait so I bought it for myself. It is a focal point in my living room and everyone who comes over asks me if it is a real fish tank. They can't believe it! My fish are flourishing and beautiful. I get so much enjoyment from this "piece of art". **It can be mounted anywhere, it doesn't take up space like a traditional fish tank and I love that you can change the frame to match any decor. I am definitely referring aquavista to all my friends"**

Thanks so much.
Jane A

What a clever and unique alternative to ‘wall art’. Kids young and old stop in their tracks and are amazed there are REAL fish swimming around in the “pictures” on the wall. The installation and care is a breeze, along with the fact there are not a tangled mess of cords to trip over. What a great idea.

**Nick R. D.D.S.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Please allow me to say that we are extremely happy with the tank which we bought.

Everyone who has seen it thinks it is beautiful and it really looks good in our redesigned kitchen where it is a focal point at the end of the room.

We have guppies, 2 algae eaters and 2 very small catfish. They all seem happy and the guppies keep breeding away

We did see a similar product which was gbp 100.00 dearer, held less water and nowhere near as attractive as the Aquavista.

BEST REGARDS,

THOMAS V.

Hello again, Eric is my husband: I'm Teresa and by the way the episode on HGTV was wonderful. I will be sending pictures of my aquarium in my family room. Everyone thinks the fish are artificial and when they find out they're not it's a whole new conversation. I have given several of my friends the booklet that I request last summer before I made the initial purchase. I will send a list of potential customers and look forward to doing business with you in the future. A truly satisfied customer.

Eric M.

Scott, Harriet and I both want to thank you for your fast responses to any questions that we had. It is a real pleasure doing business with you. The aquarium is running great now, and the fish are happy. Again, thank you so much.

Gary & Harriet

Just wanted to let you know the aquarium is up and looks much better than I had even hoped! I appreciate the great communication and quick shipment. You have a great company with a tremendous product. I look forward to showing off my aquarium and spreading the word about your company. Thanks again and continue the great work!

Josh P.

All I can say is awesome! Love them! Just setup one at my house last night... Order arrived perfect. Thanks! ~ **Dave B.**

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Dear Mr. Yen,

I am enclosing a picture of my new Aquavista 500 that I won from Women's World Magazine.

When I entered the contest I never thought I would be a winner. It was quite a surprise when it arrived on my birthday. It is just beautiful and I'm so happy. It is now up and running and quite the conversation piece to all the family, friends

Thank you, from a very satisfied customer.

Sincerely,
Kathleen M.

We are enjoying Aquavista aquariums in our office very much. Our patients love looking at the fish and it has made our reception room so pleasant. I always liked having an aquarium but didn't have the room, Aqua vista's innovative hanging tanks made it possible.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Hi Scott,

I just wanted to let you know all the Aquavista units are up and everyone LOVES them. The patients and staff are all commenting on how great they look and people have been asking me for the info on how to get them for their homes.

I have a couple of pictures which I'll send to you but I just wanted to express my thanks and let you know how popular they are here. Some of the patients are actually asking us to add more into some of the other areas in our department so hopefully we'll be able to do that. If so, I'll get in touch with you.

Thanks again!

Deborah C.
Oncology Ward of Hospital

This sounds funny but I plan to throw a party just to show off a new aquarium. Obviously it will be the focal point of the party and everything will be a fish/aquarium theme. I just love these aquariums. I have been looking a long time for the perfect one for me, I am very picky and don't like the typical, normal things that anyone and everyone has. This aquarium jumped out at me.

AQUAVISTA 500 CUSTOMER TESTIMONIALS

Dear Aquavista,

I can't thank you enough for creating what is perhaps the most beautiful fish tank on the market! I recently moved into a swanky Park Avenue building which I cannot afford, but hey... this tank deserves a swanky location! In fact, I've decorated my entire apartment around the tank! My gold-framed Old Master paintings hang nearby making the wall tank look like it belongs in a museum. At night, I keep the room dark. The only illumination is from the lights on the paintings, the flames in the candles, the green lamps hitting the leaves of my palm trees and on the center wall in the middle of the palms... behold the lighted fish tank! My handsome Fancy Guppies seem quite happy in their freshwater home. They're begging me to jump in with my wide-angle and take their close-up! Perhaps they're as proud as I am that their colors compliment the tank's gorgeous backdrop. Again...I greatly appreciate your patience with all my questions during the set-up process. Further, maintaining the tank is much easier than I thought. I think I'm ready for another Aquavista!

Best wishes from this underwater photographer,
Melanie the Mermaid
