## living art

**T**he Aquavista 500, a sleek framed and wall-mounted 6.6-gallon aquarium can transform your living space into a living art gallery. More like a flat-screen television than an ordinary fish tank, it measures 26 by 26 inches and is 4.5 inches thick. It offers a shatter-resistant acrylic screen as well as a variety of interchangeable frames and 3-D vivid marine and solid color backgrounds. Featuring a self-contained system designed to house tropical freshwater fish, the Aquavista 500 comes pre-assembled. The computer-controlled system uses an embedded LCD control panel to manage the tank's settings for filtration, temperature, oxygen and lighting, making daily maintenance almost effortless. Cost is \$299.99. For more information, visit [www.aquavistainc.com](http://www.aquavistainc.com) or call 888-627-8284.
